How to read the table

- **US median salary** is the BLS national median for the occupation (May 2025). Your market may run higher.
- **US loaded cost** divides salary by 0.70, because BLS reports benefits as 30% of total compensation. It still excludes office space, equipment, software seats, recruiting fees and management time.
- **Philippines all-in** is the typical monthly rate for a dedicated, full-time professional through a managed provider, covering salary, statutory benefits, equipment, IT and account management. We quote one all-inclusive rate per role once we understand what you need.
