

Consistent capacity for the work that has to be right every month.

Built for US standards

- Philippine accounting graduates train on US GAAP and IFRS; many hold CPA licenses or are CPA candidates, and a large bench has worked for US firms and BPOs.
- English is a working language, not a second one: 28th of 123 countries and second in Asia on the 2025 EF English Proficiency Index.
- The IT-BPM sector finished 2025 at roughly \$40 billion in export revenue with 1.9 million workers, and finance and accounting is one of its largest service lines.

Three team builds

Team	Seats	What changes
Solo bookkeeper	1 bookkeeper	Books are current weekly, not quarterly. Your CPA stops doing cleanup at tax time.
Close team	1 AP/AR + 1 staff accountant	A five-day close with reconciliations done by someone who is not also running the business.
Finance team	AP/AR + bookkeeper + staff accountant + FP&A	A full function under your controller at roughly the loaded cost of one US accountant.

Security and control

- Each professional works exclusively for you, under NDA, on a secure workstation over VPN provisioned by ThriveCore.
- You grant role-based access in your own systems: view-only bank feeds, approval workflows in Bill.com, no signing authority. Segregation of duties stays with you.
- A named ThriveCore manager, monthly performance reports and quarterly reviews keep the seat accountable.
